Emulation Sire Line

The Emulation sire line owes its origin to Murry Corbin (OK), famous for the development of the Emulous cattle. Murry formed the line by mating a line-bred Emulous cow to F C R Elation Lad 652 and producing **Emulation 31 (Emulous - Elation)**. Emulation 31 earned the highest Weaning Weight and highest Yearling Weight of his calf crop, and went on to become famous for his daughters.

Unfortunately, Emulation 31 and many of his sons, daughters, & granddaughters became famous for bad dispositions. Bad dispositioned cows & bulls are just something that we no longer need to tolerate. Jorgensen Land & Cattle evaluated and very selectively hand-picked some Emulation-line sires who retain the best traits of the Emulation line and still exhibit the disposition, fertility, & mothering ability that we want in our cattle. We will continue to incorporate the best attributes of the Emulation line while selecting for the excellent disposition by which our cattle are known.

Genetic Contributions: Fertility, Maternal Ability, Longevity, Excellent Udder Structure, Soundness, Carcass Quality
